Effective communication is essential for a successful project demonstration. This document outlines the communication strategy used within the team and with stakeholders throughout the project lifecycle, including how updates, issues, and feedback were managed.

Communication Plan

#	Type	Frequency	Channel	Participants	Purpose
1	Team Standup	Daily	Discord / Zoom	All team members	Align task checklist & review progress
2	Progress Update	Weekly	GitHub PRs	Developers	Code review and main branch merges
3	Issue / Bug Discussion	As Needed	Slack	All team members	Discuss and fix prediction API bugs
4	Stakeholder Review	Bi-Weekly	Google Meet	Evaluators / Team	Milestone review and checkups
5	Final Demo Rehearsal	Once	Google Meet	All team members	Dry-run demonstration presentation flow

Communication Challenges & Resolutions

#	Challenge Faced	Resolution / Action Taken
1	Coordinating front-end design and back-end integration.	Defined API payloads and JSON contracts early.

2	Debugging database concurrency threads in Flask.	Configured SQLAlchemy scoped session managers.
3	Resolving Git merge conflicts on schema.sql.	Adopted clean git rebase workflows.
